

3i

The **INDUSTRIAL** Choice!

Warehouse, manufacturing and logistics facilities are choosing to reduce costs & injuries while increasing productivity & efficiency with the Pure Water Technology® 3i point-of-use water purification system.

Purified Drinking Water

- Provide your employees with fresh, pure, oxygenated water.
- Continuous supply of cold and hot options for all your employee needs

Stay Injury-Free & OSHA-Compliant

- Avoid risk of injury by improper lifting of traditional 5-gallon bottles (weighing over 40 lbs. each).
- Stay spill-free and slip-proof with our bottleless cooler featuring a spacious dispense area and dispense area light for precise dispensing.

Increase Productivity & Efficiency

- Easy and quick employee access to a continuous drinking water source — keeping everyone hydrated and operating at all times.
- Eliminate the time wasted with traditional water coolers — no more storing, tracking or replenishing of 5-gallon bottles with our point-of-use system.

No Facility is Too Big or Too Small

- 3i can be placed nearly anywhere in your facility — accommodating the need for a water source in close proximity to workstations throughout the facility for easy and quick employee access.
- Our technicians can connect directly to your main water line for continuous fresh, pure water.

ISO 9001
ISO 14001

PHSI is a U.S. based manufacturer of water purification coolers, and PHSI's factory is a state of the art ISO 9001 and 14001 facility. Our pure water systems are tested and certified to the highest North American and European standards for safety and performance, including NSF/ANSI 42, 53 & 58, EnergyStar, UL, CE, and WQA Gold Seal.
